## Work History

Outdoorsy                                                    Austin, TX/Remote -  Jan 2019 - April 2020
*Front-End Software Engineer*
- ❖ Enhanced frontend infrastructure, including i18n, upgrades to Glimmer components, and automated preview app deployments
- ❖ Organized separate Ember apps and addons into Yarn Workspaces
- ❖ Implemented several product features using TDD philosophy and visual regression testing

PagerDuty                                                    San Francisco, CA/Remote - Sep 2015 - Jan 2019
*Front-End Software Engineer*
- ❖ Led the charge in building reusable components in Ember
- ❖ Successfully built a Living Style Guide and saw it rolled out to the entire front-end
- ❖ The top contributor in the front-end repository, with over 900 commits

Wolters Kluwer Health                                                    Madison, WI - 2013-2015
*Product Specialist*
- ❖ Regarded by Senior Development as the go-to expert in Pharmacy Productivity software products
- ❖ Conducted SQL database analysis to diagnose root cause of defects
- ❖ Implemented process improvement measures including accelerated implementation timelines

Wenzel Studios                                                    Madison, WI - 2012 - 2013
*Owner, Recording Engineer, Teacher*
- ❖ Utilized plugin-rich recording software to dynamically enhance music projects
- ❖ Created custom teaching techniques, including the teaching of a 2-year-old to play drums
- ❖ Engineered system to allow multi-track mobile recording

---

## Education

App Academy - San Francisco, CA
- ❖ Immersive full-stack web development course centered on Rails and Backbone.js
- ❖ Program boasts < 5% Acceptance Rate
